## ECLIPSE 2.0

This versatile and excellently ventilated helmet was developed for optimum head protection during demanding missions. The hybrid construction of a robust ABS outer shell and shock-absorbing EPS inner shell offers reliable protection against side, front and rear impacts. The contoured profile increases the protection area, while the impact- and scratch-resistant surface ensures high durability. Thanks to the enveloping shape, the helmet sits firmly and compactly on the head. Generous ventilation openings ensure effective thermoregulation, even during intensive use. The fully adjustable, textile carrying system is breathable, can be stowed away to save space and can be adjusted comfortably even with tied hair. Washable, absorbent padding offers additional comfort, while four integrated clips allow headlamps or goggles to be attached. The size is flexibly adjustable from 48 to 56 cm.

### FEATURES

Colour:	Blue
Inside padding:	Changeable, Washable
Chinstrap:	Yes, according to EN 12492
Maximum lifetime:	12 years
Min. head circumference:	48 cm
Maximum head circumference:	56 cm
Min. temperature:	-20 °C
Max. temperature:	50 °C
UIAA compliance:	Yes

### DIMENSIONS

Size:	One Size
Helmet size:	size_48_56

### MATERIAL

Material:	Acrylonitrile butadiene styrene, Polyamide, Polyester, Polyurethane, Polystyrene
