

MODEL 2042 HEAVY DUTY, SIDE MOUNT SINGLE LEVER CONTROL

This unit is constructed entirely in bronze and stainless steel and is intended for the discriminating boat owner who is looking for durability and performance. It incorporates all of the features that make for good boating. The control handle has a very large arc of rotation to give good feel over both clutch and throttle. A clutch override button is provided to allow acceleration of the engine without engaging the gear. The throttle travel is 3" and the maximum clutch travel is 1-3/8".

The unit is extremely compact and is available in several versions. The standard finish would be a chrome plated handle and front housing.

ORDERING INFORMATION

H – with one neutral safety switch

K – with chrome finish cover and handle

L – with polished brass finish cover and handle

M – with black epoxy finish cover and chrome finish handle

W – with removable sailboat handle (see note below)

One cable connection kit for clutch and one cable connection kit for throttle must be ordered separately.

Ordering Numbers:

2042-0901 (30 series cable)

2042-0902 (40 series cable)

2042-0903 Neutral Safety Kit

This control can be **ordered** (cannot be changed in the field) with the neutral position of the handle in any one of the four positions indicated. Position "1" which is vertically up is standard. Please specify the appropriate number when ordering. Example: 2042-K1

*NOTE Due to geometrical restriction, positions 2, 3 and 4 are not available to sailboat handle (W) option.

Materials: Die cast silicon bronze with stainless steel hardware

Weight: 9 lb. (4 kg)
